

MNC Marine - IPTV

Worry Free IPTV system with no restrictions

Watch TV and movies directly into your laptop, PC, tablet, SmartPhone or hotel TV. Not any complicated installations that require support. You connect to the ship's wireless network "MNC Entertainment" with your device, when you start your browser that will take you to MNC Portal. You can off course also see TV and movies on a TV by using an MNC delivered set-top box and TV.

On the portal, you will reach the TV channels, movies, safety films, shared documents and MNC Support.

MNC Marine has since 2011 focused on wireless Entertainment for ships, today we support Windows, Mac, iPad and iPhone.

Technical information:

MNC Marine delivers TV antenna and controller, TV streamer, Transcoders, Video-on-demand Server, TV with set-top-boxes, high speed- network and WIFI network, cabling and channel cards regardless of your region.

The TV streamer: Web based management and supports DVB-S, S2, DVB-T, DVB-ASI, HDMI, Composite, S-Video

Management: MNC Marine monitors the system 24/7/365 and takes action before the end users notice them.
